What do the Jongo lights on the standby button represent?

Pure Support - UK - 2015-02-04 - in Wireless Music Systems

Green Solid. Jongo is on/ Playing or ready to play

Green Pulsing. Indicates Jongo is in Wifi set up mode. You will also see this when the Jongo is booting up.

Solid dim amber. Unit is in sleep mode

Red rapid flash. When connecting to a wireless network if there is an error making the connection to your network

Red, green and amber cycle. Jongo is upgrading its software

Red Solid. Your A2, T2.T4 and T6 is off

Rapid blink amber. (No response with any button press) - this suggests the Wi-Fi software update has failed. To recover your Jongo click [here](#)

Amber blink twice. Maximum volume has been reached
