## BBC HD broadcast support

Pure Support - UK - 2019-02-23 - in [Internet Radios and Pure Connect / The Lounge](#)

### **BBC HD broadcast support**

Currently our radios don't support BBC HD broadcasts due to the way the HD stream is broadcast. BBC HD is an AAC+ stream, but broadcast using an Adobe 'Flash' wrapper, and our radios don't currently support Flash players.

We expect to provide support for the BBC HD broadcasts sometime in early 2012.
