## I have submitted a station\ podcast request. When will it appear?

Pure Support - UK - 2019-05-20 - in Using Pure Connect / The Lounge

### **I have submitted a station\ podcast request. When will it appear?**

It takes roughly 48 hrs for a station you have submitted to Pure Connect to appear in the Pure Connect station list. If you find it hasn't appeared after this time then it's more than likely already in the list (we won't submit duplicate listings) or it streams using a method that can't be supported - like an embedded player stream.

**✘ Tip! Check the method you are using to search for the station. Don't search for commonly used words like 'FM' or 'Station'. If the station has a number in its title, e.g Radio 1602 AM, then try searching for '1602' without entering any other information in the Genre and Country fields. Keep your searching as specific as possible for those hard to find stations.**
