## Instructions for finding your Avalon 300R connect firmware version

Pure Support - UK - 2019-01-18 - in TV / Set Top Box

### **Instructions for finding your Avalon 300R connect firmware version**

**Check that your Avalon 300R Connect is running the latest firmware to ensure you experience the best from your product.**

To check what firmware you have installed press **Menu** on the remote control > **System** (press blue button on the remote control) > scroll with remote control to **system information** > press **select**
