Pure Select App update

Pure Support - UK - 2018-09-20 - in [Evoke F3 with Bluetooth / Evoke C-F6](#)

A new feature has been added allowing customers to suggest a station through the App. This feature is only available for the Elan IR3 and Elan IR5. The Evoke F3 and Evoke CF6 will show this option but unfortunately it is not supported for these models.

We apologise for the inconvenience caused here.
