From the 28th February logging in via Facebook on the Pure Connect App will no longer be possible

2019-01-31 - Pure Support - UK - in General

Facebook are introducing some changes. As a result despite our best efforts these changes will unfortunately mean logging into the App via Facebook will no longer be available. You can still access live and on-demand radio by using the Pure Connect App by clicking on "Start listening now"

**Customers who have created an account prior to the 12th June 2017 can log into the App with the credentials that were used for the Pure Connect Desktop.*

**Customers who have not created an account prior to the 12th June 2017 need to click "Start listening now" All favourites will need to be stored directly on the radio.*
